

Leadership Qualities

For Our Future World – Awareness Check

We have identified the following 30 Leadership qualities necessary for the quality of thinking and decision-making required to keep the planet and her people safe and able to thrive.

Feel free to add qualities to the list from the ValueYou™ Appreciation Cards or replacing current qualities in this awareness check.

Directions:

You and two others complete the following questionnaire about you as a leader. Indicate the degree that each Quality describes you (as a leader) and see how closely their perceptions match yours. Print each Rater their own copy to complete.

Ask to have conversations with them individually to discuss your observations.

Assessed Leader's Name.....
